Professional Summary

Enthusiastic Java Developer with hands-on experience in Spring Boot, RESTful Web Services, SQL, and MySQL. Skilled in building and maintaining backend systems using Java and relational databases. Strong understanding of Object-Oriented Programming**,** MVC architecture, and Agile software development. Adept at writing clean, maintainable code and optimizing database operations to improve performance. Committed to continuous learning and contributing effectively to team-based projects.

Technical Skills

- Programming: Java, Python, JavaScript
- Frameworks & Tools: Spring Boot, Git, Tomcat
- Web Services: RESTful APIs
- Databases: SQL, MySQL, H2
- Version Control: Git

Professional Experience

Tata Consultancy Services (TCS) – Assistant System Engineer
Sept 2024 – Present

Project: Aviva Nautilus / SGB BFSI Platform (UK&E 1.1)

- Developed and maintained Spring Boot-based backend modules for BFSI applications to support core banking operations.
- Designed and implemented RESTful APIs for account management, transaction handling, and data access services.
- Contributed to all stages of the Software Development Life Cycle (SDLC) including analysis, design, coding, testing, and deployment.
- Optimized SQL queries and database operations to improve system stability and performance.
- Collaborated with cross-functional teams in an Agile environment, utilizing Git for version control and efficient code management.

Education

B.Tech – Information Technology
Dr. Mahalingam College of Engineering and Technology

Projects

Bank Management System – Full-Stack Web Application

- Developed an MVC-based application using Spring Boot and H2 Database.
- Implemented RESTful APIs for transactions such as withdrawal, deposit, and balance inquiry.
- Built separate Admin and Customer modules with authentication and role-based access.

Technologies Used: Java, Spring Boot, Angular, H2, REST APIs, Tomcat

Certifications

- Java Training Complete Course – Udemy
- SQL Essentials Bootcamp – LetsUpgrade
- JavaScript for Beginners – Udemy
- Git for Beginners – Udemy
